### Overcoming Fear

By: Terry McGiffin

What is the greatest inhibitor or limiting factor in our lives? What is the greatest factor that causes people to fail or not even try? Napoleon Hill in his book, Think and Grow Rich, identified six basic fears. One of those fears is criticism which includes the fear of rejection and failure. What are the results of fear? Fear may be the number one reason why many people fail or never even try to succeed. Fears of criticism, rejection, and failure are probably our biggest success killers. They are giant obstacles to learning and growth. What could you and I and others accomplish if we would only overcome fear in our lives? We might learn new skills, make more friends, reach higher goals, earn more money, improve quality, increase productivity, provide superior service, and achieve more of our potential in many other ways. We must remove as much fear as possible from ourselves and others to feel comfortable about learning, growing, and achieving. Fear destroys motivation but courage gives you new life. Think about it! Why must confidence and courage replace fear before people can optimize performance and achieve full potential? Ralph Waldo Emerson said "Do the thing you fear to do and the death of fear is certain." 2 Timothy 1:7 says "For God has not given us a spirit of fear, but of power and of love and of a sound mind."

**Abundant Living** is a weekly message to help people achieve more of their potential. Please feel free to share this message.
